DETAILED ACTION

REASONS FOR ALLOWANCE

1. This office action is in responsive to the paper filed on 10-13-2006.
2. The following is an examiner's statement of reasons for allowance:
 - The claimed invention is a computer-based numerical analysis program.
 - The claimed method includes a limitation "a load region data creating function for creating load region data for specifying a load applying region in said master model, the load applying region being a portion of the master model to which a load will be applied, the load being at least one of an external force and a temperature".
 - The combination of prior art of does not expressly disclose or suggest the "computer-readable recording medium" with the feature of "a load region data creating function for creating load region data for specifying a load applying region in said master model, the load applying region being a portion of the master model to which a load will be applied, the load being at least one of an external force and a temperature".
 - The reference of Robello (US Patent 6,430,455) teaches a master model while Murakami (US Patent 5,616,866) teaches external force and temperature and Rui ("A Review of ANN-based short-term Load Forecasting") teaches numerical analysis. Yet none of these references disclose, "a load region data creating function for creating load region data

for specifying a load applying region in said master model, the load applying region being a portion of the master model to which a load will be applied, the load being at least one of an external force and a temperature" as claimed in this application.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

4. Claims 1-12 are deemed allowable.
